EDTC 1 **Administrative Communication**	Percentage of Medical records that indicated the following occurred prior to patient departure from ED					
	1. Nurse to Nurse Communication					
	2. Physician to Physician Communication					
	All EDTC 1 Data Elements					
EDTC 2 **Patient Information**	Percentage of medical records that indicated the communication of following patient information within 60 minutes of patient's departure from ED					
	1. Patient name					
	2. Patient Address					
	3. Patient Age					
	4. Patient Gender					
	5. Patient Contact Information					
	6. Patient Insurance Information					
	All EDTC 2 Data Elements					
EDTC 3 **Vital Signs**	Percentage of medical records that indicated the communication of following vital signs information within 60 minutes of patient's departure					
	1. Pulse					
	2. Respiratory Rate					
	3. Blood Pressure					
	4. Oxygen Saturation					
	5. Temperature					
	6. Neurological Assessment					
	All EDTC -3 Data Elements					
EDTC 4 **Medication-related Information**	Percentage of medicalrecords that indicated the communication of following medication related information within 60 minutes of patient's departure.					
	1. Medication Given in ED					
	2. Allergies/Reactions					
	3. Medication History					
	All EDTC 4 - Data Elements					
EDTC 5 **Physician or Practitioner Generated Inforamation**	Percentage of medical records that indicted the communication of following physician generated information within 60 minutes of patient's departure from ED					
	1. History and Physical					
	2. Reason for Transfer/Plan of Care					
	All ECTC 5 - Data Elements					
EDTC 6 **Nurse Generated Information**	Percentage of medical records that indicated the communication of following nurse generated information within 60 minutes of patient's departure from ED					
	1. Nursing Notes					
	2. Impairments					
	3. Catheters					
	4. Immobilizations					
	5. Respiratory Support					
	6. Oral Restrictions					
	All EDTC 6 -Data Elements
